Profile

Full-stack developer and CS undergrad with production experience in **Python**, **Gen AI** pipelines, and **LLM** prompt engineering. Skilled across the full stack with **React** and **Go**, co-founder of a live platform serving **2000+ users**.

Professional Experience

Co-Founder / Full-Stack Developer

Aug 2025 – Present | Indore

Scratchbox | scratchbox.app 

- Built and scaled a coding-practice LMS in **Go** and **React** serving **2000+ active users** in production, with role-based access control securing all API routes and UI views via **JWT auth**.
- Designed **RESTful APIs** achieving **<150ms average response time** and developed analytics dashboards visualizing performance across **5+ metrics**
- Architected the full product independently — from **database schema** to **frontend** — gaining end-to-end ownership of a production system

Software Developer Intern

Jan 2025 – Apr 2025 | Indore

Codencious

- Built a **Production Management System** using **React**, **Django**, and **PostgreSQL**, digitizing workflows across **3+ production lines** with **20+ RESTful API endpoints**.
- Designed and optimized backend workflows including **production tracking**, **BOM handling**, **order management**, and **reporting modules** for streamlined manufacturing operations.
- Improved performance of complex **PostgreSQL queries** through indexing and query restructuring, reducing report generation time by **~35%**.

Projects

DevFlow

Mar 2026

AI-Powered GitHub PR Review Agent | <https://github.com/DevFloow>

- Tech: Python, LangChain, Go, TypeScript, React, Redis, PostgreSQL, Docker, GitHub Actions.
- Built an end-to-end **LLM-powered PR review pipeline** using **Python** and **Gemini API** with **structured JSON outputs**, issue extraction, and automated fix suggestions from raw GitHub diffs.
- Engineered preprocessing and batch-analysis workflows using **LangChain** to detect recurring code patterns, prioritize files, and generate **dashboard-based PR insights**.
- Containerized the system with **Docker Compose** and implemented secure **HMAC-SHA256 webhook verification** with automated **CI/CD pipelines** using **GitHub Actions**.

Skill Evaluator

Dec 2025

Resume & Career Coach | <https://skill-evaluator-gilt.vercel.app>

- Tech: React, React Native, FastAPI, Google Gemini API.
- Built a cross-platform (**Web & Android**) AI resume analyzer using **FastAPI**.
- Integrated **Gemini API** to benchmark profiles against industry standards.
- Developed a **context-aware AI chatbot** suggesting personalized skill-gap roadmaps.

Education

Bachelor of Technology in Computer Science Engineering

2023 – Present | Indore

Indore Institute of Science and Technology

Skills

Frontend — React, React Native

Backend — Go, Python, FastAPI, Django,

Database — MongoDB, PostgreSQL, Firebase

Languages — Python, JavaScript, Go, TypeScript, C/C++, SQL

AI — Gen AI Pipelines, LLM Prompt Engineering, LangChain, Gemini API

Tools — Docker, Docker Compose, Git/Github, Github Actions (CI/CD), Postman
